SPORTS

OAKLAND RESULTS

OAKLAND, Cal., Dec. 28.—Arionette, the heavily-played favorite, beat some clever sprinters in the feature event at Emeryville today. He went to the front when Pickens was ready and was never headed. Bambro and Golden Agnes were plunged on and led their fields home.

First Race—Six furlongs: Yellow-foot, 5 to 1, won; Pete, 20 to 1, sec-ond; Who, 20 to 1, third. Time, 1:14

Second Race—Six furlongs: Bam-bro, 13 to 5, won; Rosamo, 3 to 1, second; Calla, 15 to 1, third. Time,

1:13 1-5.
Third Race—Futurity course: Golden Agnes, 8 to 5, won; Media, 7 to 2, second; Frank Ferris, 8 to 1, third.
Time, 1:09 4-5.
Fourth Race—Six furlongs: Arionette, 6 to 5, won; Fernando, 9 to 2, second; Thistle Bell, 3 to 1, third.
Time, 1:12 1-5.

Time, 1:12 1-5.
Fifth Race—Mile: Cabin, 6 to 1, won; Quality Street, 11 to 5, second; Clako, 60 to 1, third. Time, 1:40 2-5. Sixth Race—Six furlongs: Lord Clinton, 25 to 1, won; Passenger, 7 to 5, second; Harry Stanhope, 8 to 1,

HARVARD PRESIDENT DENOUNCES "RAGTIME"

BOSTON, Dec. 28.—A denunciation of organized college cheering and "rag-time" by President Lowell, of Harvard university, was the feature of the second day's session of the Music Teachers' National association at Boston university today.

President Lowell said: "One of the saddest things is to go among college men and note the kind of music given at their dinners. It is rag-time and rag-time of a very poor quality. These men seem to care little for good music. What they want is a catchy song after they have exhausted their voices in cheering.

"Of all the processes of expressing emotions, organized cheering is from every point of view the worst."

EXPLOSION

EL PASO, Dec. 28.-Two men are known to be dead, four others are believed to have perished, at least 50 men, women and children were in-jured and a number of small houses jured and a number of small houses were wrecked by an explosion of nearly 4,000 pounds of powder in a huge slag pile at the El Paso plant of the American Smelting & Refining company today. Three men are still imprisoned. The dead and missing are Mexicans, and no accurate list of are Mexicans, and no accurate list of the names can be given.

Four Men Were Buried. Three tunnels had been bored into the slag pile by the El Paso and Southwestern railroad for the purpose of removing the slag for road ballast. A premature explosion in one of the tunnels where a gang was at work filling in back of the timbering, buried four men. Foreman John Sikes, who wer. A non-sinkable lifeboat will was standing at the mouth of this tunnel, was blown twenty feet away and lights in the air.

Entombed Men Alive.
The shock of the explosion caused the slag to slip, blocking the entrances to the other two tunnels. Just how many men were working in these tun-nels is not known, but six were resued alive and two dead bodies were ecovered. Three men are imprisoned but alive, and are pleading with the rescuers to save them.

The four men buried in the tunnel there the explosion occurred are most likely dead, as they have been en-tombed more than nine hours. Tonight a steam shovel was placed n commission to assist in reaching those inside the tunnels.

NEW YORK, Dec. 28.-Another of the world's great operatic composers -this time a German, Prof. Engel-bert Humperdincks, following the western trail of the Italian composer, Giacomo Puccini, has come with his latest creation in operatic art, "Koenigs Kinder," or "The Children of Kings," seeking American approval. Humperdinck's three-act story, tak-en from a German folk-tale, was given

its premier performance at the Metropolitan opera house, and a large audience applauded composer and artists, who were often called before the Emperor William wanted "Koenigs Kinder" for Berlin, but New York had spoken first, and as Humperdincks

tonight remarked, "You were the first to ask for the 'Children of Kings,' and that is all there is to it." The tender story of the "Koenigs Kinder," with its shades of happi-ness and pathos, found a strong response in the musical creativeness of Humperdincks, who, throughout the opera, has laid a strong groundwork of convincing harmonies that follow in their pulsations every sentiment of the story. Critics wondered that the potent music had not been applied to some love drama.

Among the singers, Miss Gerald Farrar and Mme. Louise Homer, contralto, shared the honors with Her-man Jadlowker, the Russian tenor, and Otto Goritz, baritone, in the four

With Pain. Itching Settled from Knee to Toes. Physicians Cost a Fortune. No Relief. Went to Hospital 3 Years. Unable to Help.

Finally Used Cuticura and Was Completely Cured.

"I began to have an itching over my whole body about seven years ago and this settled in my limb, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope.
"I had seen the advertisement of the Cuticura Remedies a great many times but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies a great many times but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies as when I noticed that, after having used two sets of Cuticura Song, Cuticura Ointment and Cuticura. Pills, the entire inflammation had gone. I was competely cured. I should be only too glad if people with a similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Ms. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by the Cuticura. Ms. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by the Cuticura. Hencedies after many other treatments failed. Morris Sachs, 321 E. S9th St. New York, N. Y. WASHINGTON, Dec. 28 .- Immedi-

also a member of that committee, and Representative Mann of Illinois, chair

gun but, rallying, pursued Price's men so closely that they, rather than risk losing the artillery, threw it down a hole, where it has remained for 46 years.

One of the Kansas forces lost the gun but, rallying, pursued Price's men tion on canal questions was necessary in order that the commercial world might be able to plan ahead. It was suggested that by having a definite understanding as to the tolls and trade questions involved, an active trade would be assured for the canal trade would be assured for the canal almost from the day of its opening. Finding concurrence in his opinion that expeditions legislation is neces-sary, President Taft is said to have concerned himself tonight principally with the trade aspect of the canal rather than with fortifications. If the latter subject entered into the discussion at all, it is believed to have been CINCINNATI, Dec. 28.-The illness subordinated to the matter of tolls,

President to Fix Tolls.

The opinion at the conference, it was said, favored legislation empower-

dry docks and whether it should pass its war vessels through the canal free, and its coastwise ships and possibly all of its merchant vessels at a lowe RESIGNS AS TRUSTEE rate than those of foreign countries was discussed at length by the con ferees and tentative plans launched for the preparation of legislation on these points.

It was argued by some that the United States might not be possessed of the legal right to discriminate in To Safeguard Competition.

Suggestions for safeguarding competition between Eastern and Wester seaboards through possible amend-ments of the interstate commerce laws, making it prohibitory for railroads to own or control ships in the canal trade also were advanced, but no conclusions were reached. Representative Mann and Senators Flint and Brandegee, whose committees will be most concerned with the legislation, are said to concur with the President in his idea of immediate ac-

ened on the date expected, January PENNSYLVANIA COMPANY

tion by congress, particularly on the subject of tolls in order that interests now thinking of building vessels or

otherwise entering into commerce via the canal may be sufficiently inform-

ed in advance of the conditions that probably will exist when the canal is

CHICAGO, Dec. 28 .- Former Police Inspector Edward McCann facing im prisonment in Joliet prison for convic tion on charges of accepting bribes, today asked Judge George A. Carpenter, in the United States court, for a writ of habeas corpus.

WASHINGTON, Dec. 28.-State ments made by Sir Hiram Maxim, who wrote President Taft that the gun xplosions in the United States army and navy were due to the form of powder grain in use, were character-ized as "unworthy of serious consideration" in a letter to the president from Secretary of the Navy Meyer,

were made public today.

Appended to Secretary Meyer's letter was a memorandum from Briga-dier General William Crozier, chief of ordnance, United States army, to secretary of war, refuting Sir Hiram Maxim's criticism, as well as an article in Engineering, a London periodical frequently referred to by Sir Hiram Maxim.

"It is considered," says Secretary Meyer, "unwarrantable to carry out further experiments desired by Sir Hiram Maxim, and that his statements in relation to our smokeless powder are unworthy of serious consideration except as to their misrepresenta tions and to the evil effects of their wide publicity on those unacquainted with this subject."

perience and knows what he is talking about, Secretary Meyer says Sir Hiram Maxim "is ignorant of the type the powder and the details of the of smokeless powder used by the grain are considered, there is addi-United States government, and it is quite probable that he has had very nucnts are not at fault."

"Not in any case," says Secretary "Not in any case," says Secretary and its probable that he has had very nucnts are not at fault."

were familiar he may be with nitroglycerine or cordite powders.

The letter also declares that although Sir Hiram Maxim claims to be the inventor of the type of smokeless powder developed by the United States at the naval torpedo station, Newport, R. I., it has not been used in the naval service since 1899. "The broad statement of Sir Hiram Maxim," continues Secretary Meyer, "that the gun accidents of the United States navy are dents of the United States navy are dents of the United States navy are has burst and only two or three field demic of spinal meningitis.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The PERFECTION

SMOKELESS.

المالية المالي Absolutely smokeless and odorless quickly gives heat, and with one filling of the fort burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove

and drop back so the wick can be quickly cleaned. It has a damper top and a cool handle. Indicator always shows the amount of oil in the font. The filler-cap does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost. The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for rewicking. The Perfection is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

OLD HATS MADE NEW, BEST WORK POSSIBLE. SATISFACTION GUARANTEED OR NO CHARGE. PANAMAS SHOULD BE CLEANED NOW.

HAT WORKS FIFTH FLOOR LEWIS BLOCK.
